## Believe in the BEST

Lyceum Security promotes training and development and emphasises the value of active customer service as a vital tool to both gain competitive advantage and exceed client expectations

We deliver intelligent security solutions for optimum protection of people, property and business operations.

All employees will have to face angry, aggressive or violent service users at some point during their work. To provide candidates with a wider range of non-violent options for dealing with the most common scenarios involving physical contact in licensed premises, it is essential to have sound knowledge and skills.

That is why our courses raise understanding of the background to conflict and the contribution they can make to either calming or escalating the confrontation

The main role of a security guard is to protect People, Property and Information. Their daily tasks include unauthorised access, destruction, theft, assault prevention or other illegal activities. A trained CCTV operative with the correct equipment at their fingertips can snuff out a large percentage of the misdeeds that take place in any establishment. CCTV marks a giant leap forward for the security industry.
